Key Weight Gain Boosters

Add 1–2 tsp ghee to rice/roti daily.

Drink banana/dates shakes at least 4–5 times a week.

Include nuts, seeds, makhana daily.

Use curd in lunch and dinner for gut health.

Focus on soft-cooked sabjis (pumpkin, lauki, beetroot, palak).

✗ Foods to Avoid (IBS + Weight Gain Focus)

Cauliflower, cabbage, raw onion, excess garlic.

Packaged chips, biscuits, sodas.

Excess fried/spicy food.

Cold refrigerated food.

👉 This plan will slowly bring her weight to 42–44 kg in 2–3 months, if followed consistently, and over time to a healthy BMI.

Would you like me to also prepare a combined family weekly chart (you on weight loss + wife on weight gain) so cooking becomes easier at home?
